This is great. The relative effectiveness bar graph with the basins that Gary had in his presentation...can that be added. I'm thinking that slide helps set the stage for Matt really well and will further emphasize that there is more than one way to break this up. I want the message to come out more than once that counties aren't the only way to break this up. I also just kept the one bar graph with the local goals..yes, I know I told you to put it above, but now that I see it I think it might be better to leave that out of this. Did keep the original one though.

Thanks Lucinda. Happy travels to Philly tomorrow!

Nicki – please see my updated presentation, with additional slides reflecting those bar charts.

I'm on travel to Philly tomorrow and won't have access to my work email so if you need to reach me, please call my cell
